Behavioral Health Care Center
2020 Annual Report

Hello friends,

At Turning Point, as in communities around the world, this past year has been one of extraordinary transformation. The COVID-19 pandemic has had a profound and heartbreaking impact globally, locally, and personally.

What a year to look back on.

Here at Turning Point, the year began with a host of activities, celebrations, and new programming reaching out into our community. As the curtain of COVID-19 fell on us all, I am proud to say that Turning Point not only managed to maintain that positive spirit and community engagement, but critically responded in a swift and effective way to adapt to the new conditions. At this time of crisis, Turning Point immediately pivoted to transition all therapy services to remote and telehealth formats. In this way, we ensured continuity of care for our many vulnerable clients, both children and adults.

As always, we could not hope to maintain these services and succeed in our work without the sustaining support of our extraordinary community. In this report, we look back on our year, celebrating that community and offering our sincere thanks.

On behalf of all of us at Turning Point, many thanks for your participation in our community and please accept my best wishes to you and your loved ones for your safety, health and wellness.

Sincerely,

Ann Fisher Raney, AM, LCSW
Chief Executive Officer

“I am so glad I came here and that you are real and can relate to me”

“Without Turning Point, I’d be homeless now”

“Turning Point has helped me feel that I can survive and manage to support myself”
